

LPFM's would cause many publicly funded stations that broadcast nationwide to cease to exist. As a listener and supporter of KLOVE, I wish note my personal distress. Klove serves the local communities of my area with valuable information about local events, relevant, unbiased news, and inspirational messages and music which is safe for my entire family. Beyond the benifit it brings to my family and that of my friends and fellow listeners, I know Klove is a valuable addition across the country. Often an only option as inspirational Christ based stations are being pushed off of the airwaves. I see this as a concerted effort to further that said process along. For Shame! With the nation clamoring for the airwaves to be more family friendly, the FCC is trying to destroy the very thing you are supposed to protect. Please do not make this change to LPFMs, and rob, not just my family and my community, of KLOVE's positive music and message but the entire nation. Please listen to what MAINSTREAM America wants. Help us keep KLOVE on the air! Sincerely, H. Crowe
